

# Sage CRM 7.3 Software Support Matrix

Updated March 2015

Also available on the Community at:

[https://community.sagecrm.com/user\\_community/m/sage\\_crm\\_73\\_documentation/27490.aspx](https://community.sagecrm.com/user_community/m/sage_crm_73_documentation/27490.aspx)

**Sage does not support installs on a Server/Client OS/Integration that has reached Microsoft End of Life.**

**Sage does not support running Sage CRM on a domain controller unless it's specifically running SBS.**

The Virtualization table has been removed from the Matrix because Virtualization is a deployment environment, and it is assumed that Sage CRM will run safely on any virtualization environment.

Application Server	
Microsoft Windows 2012 Server R2	✓
Microsoft Windows 2012 Server	✓
Microsoft Windows 2012 R2 Server Essentials*	✓
Microsoft Windows 2012 Server Essentials*	✓
Microsoft Windows 2008 Server R2	✓

\* HTTPS, Terminal Services, and CDONTS/CDOSYS are not supported on Windows Server 2012 Essentials.

7.3 supports the versions of application servers indicated above plus the latest service pack for these servers at the time of release.

Database Server
